

## ***Why Women Involved in Agriculture 2?***

Since 2011, ninety+ women have completed the six-session Women Involved in Agriculture/Annie's course in the Manhattan area. Many have expressed an interest in an advanced class so they could continue learning, but also to maintain contact with friends made in the original class.

The Excel workshop will be of value to both beginning and experienced spreadsheet users. The session will be hands-on, with as much individual instruction as is needed by each participant.

The Meats topic is a little different from past business management focused topics, but will be an excellent workshop. With Travis O'Quinn on board as K-State Research and Extension Meats Specialist, we are confident we can offer a good program.

Contact your local county extension office for more information:
