KCCRS: Earths’ Systems: Earth Science: Middle School: 2.1; 3.1
Grades K-6
For USD #383 - Grades K-6

Grades K-2: Do you have money on your bookshelf? This program uses a variety of storybooks and lessons to teach good money management. Also included are other lessons such as the Allowance Game. Learn about economics, how it affects our lives and the world around us. Learn how to make smart economic choices.

Grades 3-6: Are you ready for the real world? Find out as you test your readiness with lessons like the Spending Game, an adapted lesson from the Real World curriculum and other activities. Learn about economics, how it affects our lives and the world around us.

HCCRS: HGSS: Economics

Kansas 4-H Life Skills

- **Healthy Interpersonal Relationships**
  Getting along with others and interacting with people of all ages

- **Sound Decision Making**
  Making choices based on applying what is known in a productive way

- **A Positive Self Concept**
  Believing you are capable and can be successful

- **An Inquiring Mind**
  Asking questions and knowing how to obtain information

- **Concern for the Community**
  Becoming aware of and working towards improving one's community

learning for your students and help you meet state academic standards on a first come, first serve basis. If you have any questions, please
**Book in a Bag**

Schedule books to be presented by Extension staff. Each 30-minute lesson includes hands-on food activity, parent page, student activity sheets, and suggested recipes. *(Fall Only)*

**Kindergarten**
- *Cook-A-Doodle-Doo* by Janet Stevens & Susan Stevens Crummel
- *The Enormous Potato* by Aubrey Davis
- *I Will Never Eat a Tomato* by Lauren Child
- *Pumpkin Pumpkin* by Jeanne Titherington
- *To Market, To Market* by Anne Miranda

**1st Grade**
- *Dragons Love Tacos* by Adam Rubin
- *The Little Red Hen (Makes a Pizza)* by Philemon Sturges
- *The Seven Silly Eaters* by Mary Ann Hoberman
- *Tops & Bottoms* by Janet Stevens
- *A Camping Spree with Mr. Mcgee* by Chris Van Dusen

---

**4-H Gardening**

**Grade 4** *(8-week program, Fall 2017 or Spring 2018)*

For USD #383 - Grade 4

A fun-filled, hands-on gardening experience for children to grow, harvest and try new and different foods. Growing fruits and vegetables at home or school provides an environment to educate youth about horticulture, nutrition, and leadership.

Students will learn: how to garden for optimum plant growth, production and food quality; how different fruits and vegetables provide essential vitamins and minerals the body needs to be healthy; and how to handle and prepare their garden harvest. The classes are taught by Extension Agent Gregg Eyestone, with assistance from Extension Master Gardener volunteers.

Lessons:
- P.L.A.N.T.
- Make Your Pick
- Planting the Garden
- Six Nutrient Categories
- Food Labels
- MyPlate Food Groups
- Garden Care
- Harvest & Celebration

KCCRS: Structure, Function and Information Processing: Life Science: 1.1
Mealtime Manners

Grades K-2
(Fall Only)

Students will learn and practice good mealtime manners and basic table setting. Proper manners help children feel good about themselves, improve food habits and increase social skills. Having manners at mealtime creates a pleasant eating experience for everyone. This class will be taught by Extension staff.

KCCRS: HGSS: Civics: Grade 1: Families
Grade 2: Then and Now

From Larva to Butterfly

Grades K-2 (One program per school, spring only)
For USD #383 - Grade 1

Watch larvae turn into butterflies in this four-week unit. The Extension office will provide a cage and the larvae for a minimal cost.

KCCRS: Interdependent Relationships in Ecosystems
Grade 1: Life Science: 1.1; 1.2; 3.1

Pumpkins

Grades 1-3
For USD #383 - Grade 2

Students learn about the life cycle of pumpkins. The program includes a poster, book, project book, and pumpkin seeds.

KCCRS: Interdependent Relationships in Ecosystems: Life Science
Grade 2: Life Science 2.1
Grade 2: Life Science 4.1
Choose Your Own Adventure

Grades K - 6th

Is there a program that we do not offer that you would like to see offered in your classroom. We are always looking for new program ideas.

If you have ideas or suggestions, please contact Brandy or Megan at the Riley County Extension Office 785-537-6350.

History Trunk

Grade 3

Discover more about the history of Riley County and Manhattan. This program includes information on communities including Ogden, Riley, Leonardville and various Manhattan neighborhoods, pictures, and presenter information. This program is a partnership between the Riley County Historical Museum and Riley County Extension and can be followed up by a tour of the Riley County Historical Museum, Goodnow House and Hartford House.

KCCRS: HGGS: Grade 3: Community

Severe Weather

Grade 3

As they say if you don’t like the weather in Kansas, wait a bit and it will change. Ever changing weather brings the threat of thunderstorms, tornados, snowstorms and heat. Students will learn what to do when faced with different weather situations and will learn about weather conditions they may not experience in Kansas such as hurricanes and monsoons. Includes DVDs, pictures, procedures and contact information for presenters. This program is a partnership between Riley County Emergency Management and Riley County Extension.

KCCRS: Grade 3: Science: Weather and Climate: 2.2; 3.1
Ant Science

Grades 2-4
For USD #383 - Grade 2

Using an observation ant farm will help students learn about the world within the ant colony. Additional resources include fact sheets on anatomy; the roles of male, queen, and worker ants; and the benefits/problems ants cause in agriculture industry, the home and in nature. Ants will be provided for a minimal cost.

KCCRS: Interdependent Relationships in Ecosystems: Life Science
Grade 2: Life Science: 4.1

Plants in the Classroom

Grades 1-3
For USD #383 - Grade 3

Six lesson plans to introduce students to the world of plants. Also included are a poster, online resources, root view kit, seeds and pellets that promote quick growth. New activities involving Farmer George Plants a Nation and Thomas Jefferson Grows a Nation by Peggy Thomas.

KCCRS: Interdependent Relationships in Ecosystems

Fractions and Measurement

Grade 3

Students will develop and strengthen their knowledge of fractions and measurement through art, activities and games. Materials for activities provided.

KCCRS: Math. Number and Operations: Fractions; 3.1; 3.2; 3.3
Measurement and Data: 2.1; 2.3; 2.4

Riley County Extension programs present useful information related to agriculture, home economics, youth development, family life, business and economics, healthy living, and much more.

Our philosophy is to help people help themselves by taking university knowledge to where people live, work, play, develop, and lead. We work at being responsive to the needs of the people by focusing our resources on providing quality information, education and problem-solving programs for real concerns.

Clean Hands

**Grades K-2**
For USD #383 - Grade 1

Children learn how well they wash their hands by rubbing with special glow germ liquid, washing, and then checking their hands under an ultraviolet light to see how many spots they missed. The half-hour program can be presented by the 4-H Program Assistant.

By Grade 2:
Science Standard 6 - Science in Personal and Environmental Perspectives
Benchmark 1: Indicator 1 - Engage in personal care

---

Chick Embryology

**Grades 1-5**
For USD #383 - Grade 2

Watching chicks hatch is a fascinating experience for students. The Extension office provides the incubator, eggs (for a small cost), online resources, and written instructions.

KCCRS: Interdependent Relationships in Ecosystems
Grade 2: Life Science 1.1

---

Entomology

**Grades 3-6**
For USD #383 - Grade 2

Students can collect and identify insects with the materials and equipment contained in the unit. Included are a curriculum guide, posters, magnifiers, Golden Guidebooks, sweeping net, spreading board, pins, insect key, activity book, and an insect display. Local teachers have also prepared idea cards to help you use the kit. Entomologists recommend using this kit in September and October.

KCCRS: Interdependent Relationships in Ecosystems: Life Science
Grade 2: Life Science: 4.1

---

Frog Embryology

**Grades K-4 (One program per school, fall and early spring only)**
For USD #383 - Grades 2 - 4

Have you ever watched frog eggs change into frogs? Students will get to observe this transformation during the 9 week unit. The Extension office will provide the frog eggs (for a small cost), instructions, and activity book.

KCCRS: Interdependent Relationships in Ecosystems; Inheritance and Variations of Traits: Life Cycle and Traits
Grade 3: Life Science: 1.1; 4.3; 4.4
Grade 4: Structures, Function & Information Processing: 1.1
