

Photography slips and matte boards may be picked up from the Extension Office. Photography slips are taped at the bottom of the matte board. Tape each end with masking tape. Photos above show correct picture placement.

Once you have completely filled out your entry card, it is taped to the back of the matte board. Please only taped down the pink copy leaving the white and yellow copies attached. After judging is complete the white and yellow copies will be torn off. Place your photo in a 2 gallon zip top bag.
